Last Updated: October 15, 2021

EDUCATION

Rochester Institute of Technology (RIT), Rochester, New York, USA **2017 - Present**
Ph.D. Computing and Information Sciences, **GPA: 4.00/4.00**
Expected Graduation: **Fall 2022**
Advisor: Dr. Matt Huenerfauth

Rochester Institute of Technology (RIT), Rochester, New York, USA **Awarded 2017**
M.S. in Computer Science, **GPA: 3.82/4.00**

Rochester Institute of Technology (RIT), Rochester, New York, USA **Awarded 2017**
B.S. in Computer Science, Minor in Mathematics, **GPA: 3.65/4.00**
Honors: *magna cum laude*

RESEARCH INTERESTS

I conduct research primarily in human-computer interaction and accessibility, currently focusing on designing automatic speech recognition technologies to facilitate communication between deaf and hard-of-hearing (DHH) and hearing individuals. I have hosted and led co-design activities, conducted interviews and experimental studies, and performed both qualitative and quantitative analysis of video recordings and speech data to support my dissertation research. My secondary research interests include augmented and virtual reality and machine learning, including how AR/VR and ML can be applied to American Sign Language (ASL) research and to improve accessibility for the DHH community.

FELLOWSHIPS

National Science Foundation Graduate Research Fellowship (NSF GRF). **2019 - 2022**
Three-year full doctoral fellowship, valued at \$102,000 in stipends and \$36,000 in cost of education allowances to RIT. Fellowship awarded to 16% of 12,400 applicants in 2018.

PEER-REVIEWED PUBLICATIONS IN CONFERENCE PROCEEDINGS

[P.1] **Matthew Seita**, Sarah Andrew, and Matt Huenerfauth. 2021. "Deaf and Hard-of-Hearing Users' Preferences for Hearing Speakers' Behavior During Technology-Mediated In-Person and Remote Conversations," In Proceedings of the 18th International Web for All Conference (W4A '21). Association for Computing Machinery, New York, NY, USA, Article 25, 1–12.
DOI:<https://doi.org/10.1145/3430263.3452430>

- [P.2] **Matthew Seita** and Matt Huenerfauth. 2020. "Deaf Individuals' Views on Speaking Behaviors of Hearing Peers when Using an Automatic Captioning App." In Extended Abstracts of the 2020 CHI Conference on Human Factors in Computing Systems (CHI EA '20). Association for Computing Machinery, New York, NY, USA, 1–8. DOI:<https://doi.org/10.1145/3334480.3383083>

"Artificial Intelligence Fairness In The Context of Accessibility Research on Intelligent Systems for People Who Are Deaf or Hard of Hearing." SIGACCESS Access. Comput., 125, Article 4 (October 2019), 1 pages. DOI:<https://doi.org/10.1145/3386296.3386300>.
- [O.3] **Matthew Seita**. 2017. "Multi-User Interactive Applications Using Augmented Reality on Mobile Devices." Rochester Institute of Technology.
-- Computer Science M.S. Project.
- [O.4] **Matthew Seita**. 2016. "Closed ASL Interpreting for Online Videos." In Proceedings of the 18th International ACM SIGACCESS Conference on Computers and Accessibility (ASSETS '16). Association for Computing Machinery, New York, NY, USA, 337–338.
DOI:<https://doi.org/10.1145/2982142.2982147>.
-- Winner of the ASSETS '16 Undergraduate Student Research Competition (SRC).

WORK EXPERIENCE

- Graduate Research Assistant** **2017 - Present**
Rochester Institute of Technology, Rochester, New York
Conducted human-computer interaction and accessibility research. Also worked specifically on NSF Grant No. #1462280: Immediate Feedback to Support Learning American Sign Language through Multisensory Recognition, supervised by Dr. Matt Huenerfauth.
- Center for Accessibility and Inclusion Research (CAIR) <http://cair.rit.edu/>
 - Linguistics and Assistive Technologies (LATLAB) <https://latlab.ist.rit.edu/>
- Graduate Research Assistant** **Summer 2017**
Rochester Institute of Technology, Rochester, New York
Was a graduate research assistant for the Research Experience for Undergraduates (REU) in Accessible Multimodal Interfaces and assisted REU students with their research projects. Additionally conducted some research on automatic sign language recognition software.
- Math Tutor** **Fall 2015**
Rochester Institute of Technology, Rochester, New York
Worked as a tutor in the learning center at the National Technical Institute for the Deaf at RIT. Assisted deaf and hard of hearing students with schoolwork in math subjects such as geometry and trigonometry.

INVITED TALKS

Invited Panelist Speaker to discuss the NSF Graduate Research Fellowship Program 2021
Spoke and gave advice to undergraduate research students who were participating in a Research Experience for Undergraduate Program at RIT regarding the NSF GRFP fellowship.

PROFESSIONAL SERVICE

Reviewer (full-length conference papers) for ACM CHI Conference 2020

TRAVEL GRANTS

Computing Research Association (CRA) 2019
CRA URMD Grad Cohort Workshop for Underrepresented Minorities and Persons with Disabilities in Waikoloa Village, Hawaii, USA

Ninth International Deaf Academics & Research Conference 2019
Attended a conference in which Deaf researchers around the world network and congregate to discuss research, academia, and issues we face in academic environments in Reykjavik, Iceland.

Center for Minorities and People with Disabilities in Information Technology / ACM 2016
Presented research [O.4] at TAPIA '16: Richard Tapia Celebration of Diversity in Computing Conference in Austin, Texas, USA.

AWARDS AND HONORS

First Place in the ASSETS '16 Undergraduate Student Research Competition 2016
Research submission [O.4] came first place out of approximately 15 submissions. Awarded \$500.

COMPUTING & INFO SCIENCE GRADUATE COURSES

CSCI 621 - Database System Implementation
CSCI 610 - Foundations of Computer Graphics
CSCI 651 - Foundations of Computer Networks
CSCI 664 - Computational Complexity
CSCI 620 - Introduction to Big Data
CSCI 642 - Secure Coding
CSCI 654 - Foundations of Parallel Computing
CSCI 715 - Applications in Virtual Reality
CSCI 711 - Global Illumination
CSCI 721 - Data Cleaning and Preparation
CISC 810 - Research Foundations
CISC 820 - Quantitative Foundations

HCIN 600 - Research Methods
CISC 830 - Cyberinfrastructure Found
HCIN 700 - Current Topics in HCI
HCIN 730 - User-Centered Design Methods

EARLY RESEARCH EXPERIENCE

Research Experience for Undergraduates in Accessible Multimodal Interfaces **Summer 2015**

Rochester Institute of Technology, Rochester, New York

One of ten interns selected from a nationwide applicant pool. Worked with Dr. Raja Kushalnagar to create a more deaf-friendly learning environment for online lectures, and to analyze its effectiveness.

Research Experience for Undergraduates in Trustable Computer Systems **Summer 2014**

University of Connecticut, Storrs, Connecticut

One of ten interns selected from a nationwide applicant pool. Worked under Dr. Omer Khan and Dr. Marten van Dijk to create and test a software model of a Merkle Hash tree memory verification scheme.

Research Experience for Undergraduates in Imaging in the Physical Sciences **Summer 2013**

Rochester Institute of Technology, Rochester, New York

One of six interns selected from over 220 applications submitted. Worked with faculty mentor Professor Dr. Jeff B. Pelz on automating the calibration procedure for mobile eye-trackers.

SKILLS AND OTHER INFORMATION

Technical Skills: Java, Python, C/C++, C#, R, HTML/CSS/JavaScript, MATLAB

Languages (fluent): Born Deaf and a native American Sign Language (ASL) user, English

Graduate Record Examinations (GRE)

2011

Taken once; Scores: Quantitative 167, Verbal 161, and Writing 5.5 (97th percentile)
